

NEW SANIFRESH

PRODUCT BASED ON NATURAL SANITIZERS AND DEODORIZERS

DESCRIPTION

NEW SANIFRESH is a composition based on quaternary ammonium salts as sanitizer and natural citrus based perfumes. Particularly formulated for the sanitization and deodorisation of cars interiors through the use of vaporizers.

USE CONDITIONS

Vaporize NEW SANIFRESH inside the car with the specific nebulizer equipment for a few seconds keeping it at about 30 cm from the face and avoiding to breathe the vapours. Keep the car closed for a few seconds to allow the product to deposit on the interior surfaces to effect the deodorizing and sanitizing action.

TECHNICAL DATA

Appearance	Yellow liquid
Odour	lemon
pH	6
Active contents %	18-19
Density (g/ml)	1,006

Chemical composition – Reg. (EC) 648/2004

- Non-ionic surfactants : conc. < 5%
- Cationic surfactants : conc. < 5%

The product contains surfactants with primary biodegradability at least 90% and ultimate aerobic biodegradation complying with Reg. (EC) No. 648/2004

WARNINGS

After use, ventilate the vehicle before use.

Labelling
