

Dog Shower is a washing station where you can take care of your pet in a comfortable and unstressed way

It is made in stainless steel and available in two versions, Standard and Junior.

Both machines are wide, comfortable and equipped with several programs to choose to wash your dog in a safe and hygienical place. Washing programs are activated by a coin payment system, or card reader upon request. All versions have a convenient place to store cleaning products for many cleaning cycles.

STANDARD

The **STANDARD** version is a complete washing station, very easy to use, available with front opening. Only tap water and electricity are required since the machine is equipped with a boiler for water heating.

It offers 8 washing programs such as water supply for washing and rinsing, shampoo and conditioner distribution as well as vacuum function, hot air dryer and tub sanitization.

JUNIOR

The **JUNIOR** version is more compact in size and suitable for small spaces. 6 washing programs are available such as water supply for washing and rinsing, shampoo distribution as well as vacuum function and hot air dryer.

Upon request it is possible to purchase only the column with the washing programs, without the tub.
