RELIABILITY

For over forty years we have been dealing with professional and industrial cleaning.

PRODUCT

We design and manufacture our products in Italy, ensuring the best quality and assistance.

CUSTOMIZATION

TMB is your ideal partner, attentive to the needs of market and ready to satisfy your requests.

Your better CHOICE

In over forty years of experience TMB has structured its product **offering in order to respond to all market needs.**

Vacuum cleaner families are divided into **commercial/professional** and **dry/wet & dry.** The range of vacuum cleaners is completed by

a series of **machines for special applications.**

All vacuum cleaners are made with **plastic tanks (injection, blow molding and rotational)** or stainless steel and can be combined with a series of **kits and accessories.**

You cannot find what you are looking for?
Let's create it together!

Our team is able to satisfy all of your requirements.

11 reasons to choose **TMB**

.01 SILENT

Machines equipped with power regulator that can lower the sound level below 50 dB.

.02 POWERFUL

Our machines can be equipped with bypass motors up to 1400 W of power.

.03 DIMENSIONS

In our range of vacuums the capacity of the tanks varies from 9 to 110 liters.

.04 MATERIALS

We only use resistant materials like polyethylene, polypropylene and stainless steel.

.05 FILTERS

All the aspects of a vacuum cleaner are being treated in all the details: from the paper filters, to HEPA H14 and washable polyester filters.

.06 ACCESSORIES

We only use high quality products subject to high stress test levels.

Features of our VACUUM CLEANERS

TMB can produce OEM
vacuum cleaners.

.07
BRANDS

Our machines are certified to be
sold also abroad.

.08
CERTIFICATIONS

Reliability guaranteed by latest
generation motors and quality
components.

.09
SAVING

New lines of vacuum cleaners
entirely built with recycled
plastics

.10
SAVING

We design and manufacture our
products in Italy.
We look forward to seeing you in
Verona.

.11
MADE IN ITALY

Certifications

VACUUM CLEANERS

TMB is a company that guarantees reliability. Constant research and development are the key points we have chosen to guarantee the quality of the products which also have the certifications required in numerous export countries.

Precisely on the concept of certification, TMB wants to put more emphasis; we offer a variety of products: from small and silent vacuum cleaners to ATEX without forgetting about special requirements for different countries or certifications for toxic dust. TMB wants to be a guarantee for everyone.

VACUUM CLEANERS

PRIME LINE

Range of 1, 2 or 3 motor vacuum cleaners, available with plastic or stainless steel tank. Versions with fixed trolley and draining hose kit are available to facilitate operations emptying. The front squeegee accessory is also available to easily suck up liquids on large surfaces. In some models there is a tilting trolley for more practical emptying. Accessories are available with Ø 37/40/50 mm.

PROFESSIONALI

WET & DRY

VACUUM CLEANERS

QUICK LINE

Professional wet & dry vacuum cleaner with the “QUICK CLEAN” system in order to clean the filter without opening the machine.

The class M filter cartridge, located inside the head, not in contact with liquids,

allows the operator to work continuously and vacuum dust and liquids.

Tank capacity from 30 to 80 liters. The 80 liter version is equipped with a drain hose, an accessory holder and a special opening for internal washing of the tank.

Dirty filter, poor suction.
Don't switch off the machine; place the nozzle on the floor and press the push-button three or four times.

Really dirty filter, really low suction.
Don't switch off the machine; remove flex hose, stop hose inlet with the palm of the hand and press the push-button three or four times.

Wide surface cartridge filter inside the head: more efficiency and more tank capacity.

Removable float: more tank capacity for dry use.

Ergonomic hook for cordset.

VACUUM CLEANERS

REMOTE LINE

The remote control vacuum cleaners allow the use of electrical and pneumatic tools thanks to an efficacious suction. By turning on the tool, the vacuum cleaner is turned on automatically, while, when the tool is turned off, the vacuum cleaner stays on for five seconds.

Push-button for cleaning internal cartridge filter.

Socket for tools with a remote control ignition.

P25

QUICK P30

A58.3/SE

PRO BATTERY

Wet & dry battery vacuum cleaner. With 24V power supply, PRO BATTERY combines excellent performance with a 77 liter tank.

PRO BATTERY

CARPET WASHER

Ideal for cleaning textile surfaces such as carpets and rugs. Combination washing and drying with a very small footprint.

L18 / L18-3S

FOAM SEAT CLEANER

Ideal for washing and drying rugs, carpets, seats, armchairs and sofas.

The advantage of this technology is that it dries quickly.

VACUUM CLEANERS

PICCOLO FLY

PICCOLO FLY

Dry vacuum cleaner with 400Hz motor special for airplanes. Equipped with full bag alarm, cartridge filter and additional electical socket.

SABINOX

The sand-blasting machine is suited for localized sand-blasting jobs and surface restoration using a unique recovery system preventing the dispersion into the air of dust or other abrasives. It can also be used to erase graffiti and to make drawings on surfaces such as glass, marble, etc. The machine has to be connected with a 100 liters (almost) compressor.

W&D VACUUM WITH PUMP

Ideal products for sucking and filtering liquid residues. They are equipped with an ejection pump to allow different use operations.
