CARWASH EQUIPMENT

euroSelf®

CARWASH EQUIPMENT

TMB srl is a Comac group company with over thirty year's experience in the professional vacuum cleaner sector. Its product range has now been joined by the Euroself line of manual and self-service equipment specifically for the carwash market. According to authoritative analysts, this young but rapidly growing market offers extremely promising potential for business.

There are approximately 37 million cars on the roads in Italy today (2013 official ACI survey). The average motorist cleans his or her car 10 times a year. Considering a hypothetical cost of 5 euros per wash, this equates to a potential market of approximately 370 million washes per year, for a total of 1,850,000,000 euros. This is a significant market that offers remarkable opportunities for profit.

The Euroself range includes manual and self-service equipment for vacuum cleaning, sanitizing, polishing, washing seats, restoring the finish of spoilers and tyres and for distributing car care products. For service stations and specialised carwash facilities, Euroself has also developed an innovative cleaning system for pets (Dog Shower), offering yet another attractive opportunity for business.

SINGLE VACUUM CLEANER

Stainless steel single vacuum cleaners, in single-phase or three-phase versions.

Compact dimensions with generously sized filter and 28 l tank.

Equipped as standard with magnetic induction filter shaker, 5 m flexible hose and one "America" type flat lance. 40 mm diameter accessories.

Practical, easy to use tank emptying system.

Optional kits: Air; Wheels; Anti-vandalism; Hose carrier

Weights	kg	87
Dimensions (l x w x h)	cm	126 x 112 x 52

PAPER/SYNTHETIC CHAMOIS DISPENSER

Vending machine for dispensing paper or synthetic chamois for car care use.

Featuring a compact design and a mechanical or electronic coin box, these machines also include a practical bin for used paper/synthetic chamois.

Dispenser timer settable from 5 to 50 seconds, for dispensing lengths of product from 15 cm to 150 cm.

Optional kits: Wheels; Anti-vandalism

PAPER/SYNTHETIC CHAMOIS DISPENSER TECHNICAL DATA		single-phase
Voltage	V/Hz	230/50
Rated power	W (no.)	100 (1)
Weights	kg	67
Dimensions (l x w x h)	cm	74 x 145 x 52

DEODORISER-SANITIZER SANNY

Equipment for sanitizing and/or scenting car interiors.

Thanks to the atomisation process, the product dispensed ensures a long-lasting effect without wetting the surfaces treated.

Stainless steel structure with or without built-in compressor.

Optional kits: Wheels
